## BALLOON RACE OVER THIS CITY

Rushville on the Line of  
March of the National  
Balloon Contest

WILL PASS HERE OCT. 21

Eighteen Monster Dirigible Bal-  
loons to Race From St. Louis  
to Atlantic Coast

There is going to be a balloon race soon, and fortunately Rushville, or at least Rush county, is on the "Air Line," and some of the monster air bags will come this way. The race is the first ever conducted in America, will start from St. Louis on the afternoon of October 21st, and is to end at the Atlantic coast towards Boston or New York. Eighteen or more balloons will be entered in the race and all will pass over this section of the country. The chances are ten to one that a majority of the balloons will pass over Rush county and it is probable that at least some of them will pass directly over Rushville. The balloons may pass over this section of the country at night. Weather predictions for the latter part of October indicate that there will be clear skies and a bright moon, and it is highly probable that watch parties will be the order of the day about the time the balloons are scheduled over Rushville. The balloon race is for the Gordon-Bennett cup which was recently brought to America by Lieutenant Lahm and Major Hersey. Both gentlemen won the cup at the last big balloon race in Paris, France.

## PRICE OF COAL TAKES A BOOST

Rushville Dealers Increase  
Prices on Advice of Raise  
at the Mines

Local coal dealers have raised the prices on ten different grades of coal, the advance ranging from 25 to 50 cents per ton. Notification of the advance came to the dealers last Saturday.

Very little coal, aside from soft coal is sold in Rushville, and this has advanced from \$4 per ton to \$4.25, and \$4.50 according to cartage.

The boost in the price is said to be due to an advance at the mines.

## HOGS ARE DYING BY THOUSANDS

Over 200,000 Succumbed to  
Cholera in Indiana  
Last Year

Thousands and thousands of hogs were killed in Indiana by cholera and other diseases during the year ending March 1st, 1907, according to statistics compiled by Miss Stubbs, State statistician. Miss Stubbs has been compiling live stock statistics this year for the first time in the history of her office and the results are such as to indicate the value of the work to the State. During the past year, 217,194 hogs died of cholera and kindred diseases. A total of 53,973 heep perished also from various diseases during the same period.

## COUNTY SUNDAY SCHOOL CONVENTION AT ARLINGTON

The Rush county annual Sunday school convention was held at the Arlington hotel, on Monday, Oct. 7, and was attended by representatives from all the county schools. The convention was held in the morning and afternoon sessions. The morning session was held at 10 o'clock and the afternoon session at 2 o'clock. The convention was very successful and the results are such as to indicate the value of the work to the county.

## LADIES MUSICAL ELECT OFFICERS

First Meeting of the Year Was  
Held at the Courthouse  
Yesterday Afternoon

The Ladies Musicales held their first meeting of the year in the assembly room Monday afternoon with Mrs. Joseph Clark as leader. The officers for the season 1907-1908 are: President, Mrs. R. J. Wilson; vice president, Miss Jennie Madden; secretary, Miss Bessie Lee; treasurer, Miss Alice Norris.

The Musicales is one of Rushville's best societies, and is instrumental in promoting a taste and cultivation of good music. Excellent programs will mark the meetings this season.

## COUNT EVERY PIECE OF MAIL

Big Task is Laid Out For the  
Employees of Local  
Office

LAST AN ENTIRE WEEK

Includes all Classes of Mail and  
Will Result in Valuable  
Information

A long and tiresome task confronts the local employees at the postoffice. Between October 12th and 19th every piece of mail that goes through the Rushville postoffice has to be counted. This is the order that comes from the headquarters at Washington and it affects every postoffice of the cities in the United States.

The order is to keep an accurate count for one week of each and every piece of outgoing mail from the local office and the weight by classes as well as the totals. This includes all letters, postal cards, or other matter going at first class postage, circular letters, newspapers, packages, merchandise, etc.

The date for this counting begins at twelve o'clock, midnight, of October 12th, and continues for seven days.

The object is to gain accurate information to be used by the coming session of congress as a basis of calculation in the passage of equitable postal laws.

## ANCESTORS CAME WITH WILLIAM PENN

William C. Fox, one of Union township's oldest residents, is dead at his home, where he has lived since a small boy. Deceased at the time of his death was 79 years of age. He was a descendant of the Fox family that came to the United States with William Penn in the seventeenth century.

In the year 1830, Ellis Fox, father of William Fox, came from Washington county, Penn., to Union township, traveling the entire distance on foot. He went back the next year and brought his wife and family, of which deceased was a member, to Indiana. Floating down the Ohio river to Cincinnati, they came to Union township and located on the farm, where the subject of this article died.

In 1849, William C. Fox and Margaret Rich were united in marriage. The wife and two children survive the father, one son, Elgie, who is in the South and one daughter, Mrs. Mary McFadden, of Indianapolis.

The funeral services will be held Thursday at 10 o'clock. Burial at the Fairview cemetery.

Boy Confesses Horrid Crime.

Camden, N. J., Oct. 8.—Joseph Wood, aged sixteen years, who was arrested on suspicion in connection with the murder of nine-year-old Ethel Nevins, whose body was found in a thicket not far from her home in East Camden on Saturday, made a confession last night, according to an unofficial statement issued by Prosecutor Scoville in which he admits having murdered the child. The little girl had been maltreated prior to the murder.

## OODLES OF BASS FOR FLATROCK

Lon Mull Will Dump Thou-  
sands of Black Bass at  
Camp Mull

FISH TRAIN IS COMING

United States Fish Commission  
Will Pass Through Rushville  
Tomorrow Evening

The special car of the United States Fish Commission will pass through this city tomorrow on the Pennsylvania line. As far as known, no one in Rushville has made arrangements to get fish from the car to replenish the local streams.

At Manilla, Lon Mull has made arrangements to receive several thousand black bass which he will dump in Flatrock creek at the Mull camp, one mile and a half south of Moscow.

All along the line, followers of Isaac Walton are instructed to have large tanks filled with water for the reception of the fish from the commission's car.

## WARDES LECTURE A RARE TREAT

Close Student and Authority on  
Shakespeare Delights a  
Large Crowd

It would require too much space and consume too much time to give an adequate review of the brilliant lecture on "Shakespeare and His Plays" by Frederick Warde last evening, and do justice to same.

However, a feeble tribute is paid this talented artist in the fact that the Rushville auditors were delighted, pronouncing it the master discourse of its kind ever heard here, and a rare treat, indeed.

Mr. Warde is an Englishman by birth, and in championing the cause of the Bard of Avon, he does it in a manner, plainly showing that his heart is in the work. To begin with, he has his subject well in hand, being considered an authority on Shakespeare. In a thorough manner, he goes over the Baconian theory of authorship, and brings out many facts, heretofore unpublished. He utilizes the subtle arts of the histrionic profession to bring out in a forcible and clear manner, the man Shakespeare.

Mr. Warde gave a touching story of his last audience with the late President McKinley; the two men were warm friends, and to the actor-lecturer at the last meeting, Mr. McKinley confided to him that he had shaped his life after a quotation from Shakespeare. Mr. Warde employs this little story to show the wide influence of Shakespeare on men in even the greatest walks of life.

The lecturer declared that the English poet playwright was only second to one in teaching the great doctrine of Brotherly Love and promulgating Christianity.

The Wednesday Evening club is to be commended for making it possible for Rushville people to hear, at their own home, an artist the stamp of Warde.

Further Sensation Promised.

Pittsburg, Oct. 8.—Very little of a definite nature is known here regarding the sensational developments in the Hartje divorce case which are alleged by the woman's husband, August Hartje, the millionaire paper manufacturer of this city. Mrs. Mary Scott Hartje, who is visiting at Ligonier Springs, Pa., in a telephonic conversation with this city, refused to discuss the new phases of the case as alleged by her husband. Within a short time, it is promised, a still greater sensation will be made public by Mrs. Hartje's counsel.

Sustained by Big Majority.

The Hague, Oct. 8.—The entire Anglo-American project providing for obligatory arbitration, was approved at last evening's session of the peace conference committee on arbitration by 31 votes to 9. The opponents of the measure were Germany, Austria-Hungary, Switzerland, Belgium, Roumania, Greece, Turkey, Bulgaria and Montenegro. Italy, Japan and Luxembourg refrained from voting, and the delegate was absent.

## HAIR WAS NOT CUT FOR MANY YEARS

Rural Route Carriers Made a  
Foolish Promise on Bryan  
Being President

"Squire" Lon Miller, the veteran rural route carrier out of St. Paul, was in this county last week, spending a part of his fifteen days' vacation.

The "Squire" tells an amusing story of how he lost his silvery locks. He had made a foolish promise not to be shaved or have his hair cut until politics came his way and he looked a veritable Rip VanWinkle, until some of his friends, on mischief bent, took him by force into a barbershop, and after he had been fixed up in the best style of the tonsorial art, the boys paid the bills and told him to go and be a patriot—that any man elected President is our President—the President of the people.

## MUCH CORN BLOWN DOWN BY WIND

Farmers in This and Adjoining  
Counties Report Damage  
to the Crop

Many reports are coming in from over this and adjoining counties of the damage done by the recent rain and wind.

Farmers report that much corn has been beaten and blown down by the rain and wind, especially is this true of the heavier corn. Where the wheat has not been sown yet, it will be almost impossible to finish it in the fallen corn.

The farmers say that the conditions will make it very difficult to cut the corn, or to husk it, as some of it is so heavy that it will be trying on the teams to make their way through the rows.

Should there be a wet fall it is believed that much of the down corn may become rotten, where it lies flat on the ground.

## EACH ONE MOVED TO OTHER'S HOUSE

Game of Checkers Played by  
Three Families Here  
Yesterday

How fickle and dissatisfied is humanity. All of us wishing for something that the other fellow has, and the other fellow coveted our place in life. It was ever thus. But it is seldom that we have a "blackboard" exemplification of this condition as it was seen here yesterday.

Three families in the northeast end of this city moved, and where one moved out the other moved in. It was a great game of checkers with household goods for markers, and houses for the black and red spaces. And now each one of the three families are of the opinion that they bettered themselves in the change, and all are now living happily in the King's Row.

In the chess movement, John Duffy and family of East Ninth street, moved into the house vacated by Raymond Sharp on East Seventh street; Dora Amos and family, of North Willow street, moving to the house vacated by Duffy and Raymond Sharp and family moving to the house vacated by Amos.

## STRENUOUS DAY IN SHELBY COUNTY COURT

"Heavy, heavy, what hangs over your head," was the game Judge Sparks played yesterday in the Shelby circuit court. It was the record breaking day in history of crime in that court, prison sentences being imposed on nine prisoners.

Among the nine sentenced was John Griffiths, who pleaded guilty to holding up Albert Gordon, a resident of Rushville.

The damage suit of George Little against the Indianapolis company was also tried.

## GOWDY ENTERS THE CARRIAGE

Will Take the Reins of the  
Watson Candidacy Ve-  
hicle Next Thursday

VETERAN IS YOUNG AGAIN

Goes Into the Political Arena  
With all the Strength and  
Vigor of Youth

"Uncle Jack" Gowdy looks natural "back among the old folks." And the old folks in this instance are the men in Indiana interested in things political. When the "noblest Roman of them all" agreed to take up the active work of managing the gubernatorial campaign of James E. Watson, it goes without saying that it caused a deal of uneasiness in the camp of the other candidates.

Today Mr. Gowdy was busy in Mr. Watson's office, having put his shoulder to the active work, and seemingly he was giving Watson matters the same attention and executive consideration that he gave to the many perplexing questions of the Franco-American consular service and the knotty (not naughty) problems which confronted "Uncle Jack" when he was the political master of Indiana.

When Mr. Gowdy was Republican State chairman, a brother of George Ade, the noted American humorist, was county chairman of Newton county, and one cannot resist from associating our own "Uncle Jack" with many of the subtle, clever and gentlemanly so called "stunts" in Indiana politics which George Ade immortalized with the great American play, "The County Chairman."

Thursday the Watson headquarters will be opened at the Claypool hotel in Indianapolis, where the good old "County Chairman" will again direct the forces on the field of battle. At the very mention of being in the harness once again, a twinkle comes into Capt. Gowdy's eye, and Father Time turns over the hour glass, and the sand of twenty years ago, again begins to trickle down the narrow stem.

ROOSEVELT LUCK

Ever the Rain Hates the President's Hunt Along.

Stamboul, La., Oct. 8.—Except that the temperature is too humid to render physical exercise enjoyable, the president is having favorable weather for his hunt. Previous to his arrival there had been no rain for weeks, and the conditions were most unfavorable for hunting, the breaking of the dry twigs giving warning to the game of the approach of its foe and the hard surface being very trying to the feet of the hunting dogs.

Indeed, some of the dogs the president is using were recently so disabled by this condition that they came near being unfit for his use. The president's proverbial good luck was, however, with him in this as in other matters. A gentle rain was falling when he arrived at Stamboul on Saturday, and there have been two or three showers since. None of them have been of great duration, but they have well served the purpose of putting the forest in the best possible condition for both man and beast in stalking game. True, the atmosphere is steaming between showers, but the president is reported to be showing himself capable of rising quite superior to this condition, indeed, so far, neither rain nor heat has been permitted to interfere with his sport.

The camp-ground is well located and while on low land, is not in a swamp, the site being comparatively dry. Persons who have seen the tent say it is well furnished. There is not only plank floor, but wooden walls running up four or five feet from the ground. The table is liberally supplied with fruits, canned delicacies, and so far has been supplied with fresh venison.

Must Tell the Grand Jury.

Boston, Oct. 8.—As a result of a statement concerning corruption alleged to exist in the Boston city government made by United States Senator Henry Cabot Lodge at the Republican state convention Saturday, the senator has been summoned by District Attorney John B. Moran to appear before the grand jury and tell what he knows of the situation at the city hall. He was directed to appear at the courthouse next Monday. The air is heavy with the stories of corruption at the city hall of offices sold, of percentages taken, of pay-rolls loaded, of loans made to support men in idleness, of widespread frauds at the city box, which should be rigidly investigated and brought to light.

Green, of Indianapolis, and Monday with his wife.

## WILL GIVE A FEAST IN THE WILDERNESS

Congregation Has Planned  
Unique Benefit For Their  
Popular Pastor

One week from next Saturday the congregation of the Second M. E. church will give a novel benefit for their popular pastor, Rev. T. T. Carpenter. A large tent will be pitched on the church lawn, where a unique entertainment called "A Feast in the Wilderness" will be given. The nature of the ceremony will, in a degree, be kept for a pleasant surprise for those attending.

## WILL SOON BE AN ARTISTS' DREAM

Many Beautiful Maple Trees  
Taking on Hues of Many  
Colors

ARE PAINTED BY OCTOBER

At this Season, Rushville is  
More Than a City Beautiful,  
a Garden of the Gods

Of all the cities in the State, and of all the times in the year, this city and this time excels. With our hundreds of beautiful maple trees standing like fairy sentinels on either side of our streets, the sun-kissed, many colored tinted boughs, meeting and embracing overhead, it is indeed a sight beautiful and a heavenly period of the year.

The wheel of time has once again ushered in October, the first month of Autumn, with its ripe vineyards and orchards, its sparkling skies, and little rills which so merrily flow through hued fields and forests, beautify the landscape, making it a vision of plenty, grandeur and good cheer. Oh, it is a glorious season of matchless days and heavenly nights—a fitting adieu to the wealth and fullness of summer, before yielding to the frosts and snows of the long, dreary winter. The only "black-eye" on this body of golden wealth in harmonious colors at this time, is the sewer excavations—but that will soon fade into completion.

There are but few scenes in our world to excel this season. It is beautiful exceedingly! See yonder in the heavens among the light, floating clouds a most gorgeous array of crimson and gold, violet and purple-tinted forms, and the sun, like a globe of fire, lingering on the hilltop golden, slowly sinks beneath the horizon. There, enchanting, fair, serene, dwells October like a queen.

Storms, following on the wake of severe northwest gales, sleet, frost and a general assortment of about as uncomfortable weather as could be wished out, is the offering that the Rev. Hicks, the weather prophet, makes in his predictions for the month of October, and nearly all of these climatic disturbances are to come along towards the close of the month.

## STIVERS WILL OPEN CAMPAIGN

Candidate For Congress From  
Union County. Speaks  
Here Tonight

Charles W. Stivers, editor of the Liberty Herald, and candidate for the Watson toga in this district, will speak tonight in the assembly room of the court house on matters pertinent to the interest of all voters. Live questions will be fully discussed by the editor-politician, and his speech tonight marks the opening gun of the congressional nomination battle.

While Mr. Stivers comes here that he might meet and talk with the voters of this county, he is by no means a stranger, for he was formerly engaged in the newspaper business here, and will be pleasantly remembered by a number of our older residents.

## DECREASE IN ENUMERATION

Rush County Schools Smaller  
Than They Were Twenty  
Years Ago

MANY REASONS ARE GIVEN

People Not in Keeping With  
Roosevelts Doctrine on  
Race Suicide Question

In going over the school records of this county, it is found that although the population has increased in the past twenty years the enumeration of school children has decreased almost a thousand. Twenty years ago the enumeration was nearly 8000 this year it is 5080.

County Superintendent Headlee offers two reasons for the decrease. Twenty years ago it was no uncommon thing to see young men and women twenty-one years of age in school, but today pupils leave school at about sixteen years of age.

Another reason for the decrease is the fact that families are smaller than they used to be. Many a child goes lonely to school without any little brother or sister to accompany him. People do not seem to heed the Rooseveltian doctrine on race suicide.

While the decrease is in evidence for this number of years, yet regardless of the fact, the first day's attendance this year was almost one hundred more than the attendance at the opening day last year.

## NOW IS THE HEYDAY OF THE JUNKMAN

Years Accumulation of the House  
wife Will Now be "Stuffed  
off"

The junk man, who during the hot summer months was classed as such a nuisance, is hailed with delight at this time of the year. Were it not for him there would be piles of old stuff hanging around and the city would present a different appearance. It is amazing how things accumulate in the fall of the year during house cleaning time, and innumerable articles classed as rubbish are sold to the junk dealers.

According to a local dealer, the junk man's life is not one of peaceful bliss, however. Besides being subject to frequent abuses, he takes many chances in disposing of the old truck. It is a common occurrence to find that he has simply paid for hauling something away for which nothing is received by him in return.

H. H. Giffin, who had the contract with the I. & C. traction company to take out gravel from their big pit just north of town, says the Morris-town Sun, has closed down for the present and moved the machinery away. With the large steam dipper 8000 yards of fine ballast material has been scooped up from a depth of 30 or 40 feet and dumped in one massive pile. It looks like a mound when viewed at a distance. In addition to this surplus, a large amount of gravel was loaded on cars and hauled to different points on the roadbed early in the season. The big pit now resembles a small lake, water standing at a depth of over 30 feet in the center.

By way of prophecy, it might be added in this connection that the traction company may have an attractive fishery and pleasure ground there some day after the gravel is all removed. We say this is within the range of a possibility.

By the Wayside

There was a chap who owned a store and often wished it grander; he sold his goods to all who came—his name was Alexander. He mixed the goods with cunning hand (he was a skilful blander), and since his sugar was half sand, they called him Aleck Santer. He had a sweetheart (pretty maid), admiringly he scanned her; and asked her if she'd change her name—a ring did Aleck hand her. "Oh, yes," she said and sweetly smiled, "If I may be commander." And thus they formed a partnership, the first name, "Alex & Her."

Will devote all my time if necessary, that the business of the Association may be done properly.

## ANNOUNCEMENT

Rue Webb announces himself as a candidate for Actuary Rush County Farmers Insurance association subject to the election, Oct. 12th. 1907. If elected will have an office at least one day in the week in Rushville for the accommodation of the members. Telephone in residence and what time needed devoted to the business of the Association.

They say that Judge Parker has gone to the trouble to announce that he will not again be a candidate for the presidency. Why?

John Sharp Williams wants the Democrats to emphasize the things on which they agree and forget the others. This is about the same as suggesting an endorsement of Thomas Jefferson and Andrew Jackson and leaving the rest to the dear people.

There are many reasons to believe not only the primaries but the final elections throughout the country will be cleaner than ever before. And no where will there be a greater change for the better than in this very State.

Democratic politicians seem to be considerably elated over the probable addition of seven electoral votes from Oklahoma. Well, seven would add a considerable per cent. to the number of Democratic votes at the last meeting of this same college.

The best thing in the numerous speeches of the president and the one thing chiefly noticeable is his disposition to enforce the laws in behalf of all alike, when he says that the average citizen will no more tolerate government by a mob than he will tolerate government by a plutocracy, he expresses just what every fair minded citizen wants to hear from the chief magistrate, and the one thing that every such citizen wants as the foundation of his policy. "We are trying to shape things," he says, "so that as far as possible each man shall have a fair chance in life—so that he shall have, so far as by law this may be accomplished, the chance to show the stuff that there is in him."

A thousand girls landed at New York from the old country and are in search of husbands. If marriages are arranged in Heaven the agents on earth have a queer way of carrying out orders. But then are marriages so made? From the number of divorces and the amount of unhappiness in families it is hard to believe that this influx of the foreign element. It is direct competition with our home industries that should be shut out by a protective tariff. Lord knows we have enough old maids. Our market is flooded with eligible girls. Patronize home industries, even to the selection of a wife.—Noblesville Ledger.

## BACK IN THE GAME

Senator Beveridge Picking Up the Latest Political Gossip.

Indianapolis, Ind., Oct. 8.—Senator Albert J. Beveridge and bride, who was Miss Catherine Eddy of Chicago, niece of Mrs. Marshall Field of Chicago, have returned from their honeymoon in Europe. They went immediately to their home on Washington boulevard, but the senator spent the most of the day at his office in the Newton Claypool building, receiving his friends. He was not out of touch with Indiana politics long after his arrival, as his lieutenants called early to tell him of the progress they are making with the boom of Charles W. Miller of Goshen for governor. The senator proposes to be very active in Miller's behalf. Miller arrived here today to discuss the situation with him. The senator expressed gratification over President Roosevelt's signing of the new constitution for Oklahoma. He spent considerable time during his tour abroad studying the inheritance tax laws. He said that during the coming session of congress he will speak at length on the subject. He will spend the next six weeks in Indianapolis, at the end of which time he and Mrs. Beveridge will go to Washington for the winter.

A movement is on foot to make a political organization of the Central Labor Union of Indianapolis, and to have it take an active part in the coming campaign. The political committee of the trades union has addressed a communication to every local union in Indianapolis, asking it to appoint a political committee of five members. After the appointments are made a general meeting will be held to outline the policy of the organization in the campaign next year. The unions are urged to select men who will not be overcome by the offer of appointment to some minor political place. Men are desired who will place the unions above partisan politics. It is supposed that similar action will be taken in other cities in the state, although a very large element in the State Federation is opposed to the unions taking part in politics as organizations. The radical element is said, however, to be in control of the situation. No candidates will be nominated by the unions, but they will issue statements from time to time indicating who ought to receive the support of the laboring classes.

That Indiana will be a "dry" state by 1912 was the prediction made by Rev. E. S. Shoemaker, superintendent of the Anti-Saloon League, at the meeting of the Indianapolis Methodist ministers' association. He said that 700,000 people in this state now live in "dry" territory, and that the crusade against the saloons is being carried on very vigorously. There are now eight counties and eight cities entirely without saloons. Boone county has just gone "dry," the last saloon having just been closed by remonstrance. Rev. Shoemaker asked for the appointment of a committee of fifty active lay members of the Methodist church of Indianapolis to tone up the sentiment against saloons and to bring about stricter law enforcement.

Congressman James E. Watson of Rushville was here last night arranging for the opening of his headquarters at the Claypool hotel Thursday. He is losing no time in getting into his campaign, as he expects to return to Washington for the opening of congress and to spend the winter there. His interests here will be looked after by Captain John K. Gowdy, former consul general to Paris, and other well-known Republican leaders.

Clark Case Postponed. Terre Haute, Ind., Oct. 8.—Judge Piety has granted the attorneys for County Treasurer William Clark, charged with embezzlement, a week in which to file a plea of abatement. The case comes up again Monday. There is speculation as to the grounds on which the plea will be made. The defense will argue that the indictment was prejudiced, and it is believed the fact that County Councilman Nelson Palmer was one of the grand jurors returning the indictment will be used in sustaining the plea.

Will Create Modern "Utopia." Los Angeles, Cal., Oct. 8.—One hundred men and women, residents of southern California, have banded together in the organization of the La Prosperidad Colony association, which has for its object the setting up of a

modern Utopia on the eastern coast of Lower California. Byron Hall, president of the association, is now in the City of Mexico conferring with President Diaz relative to the sale and concessions involved in the purchase of 300,000 acres of land.

Leopold Gains Point. Brussels, Oct. 8.—The parliamentary committee on the Congo independent state accepted by nine votes to seven Article 9 of the colonial bill, which provides that the Congo budget shall be drawn by King Leopold alone, without consulting or submitting to the chamber. Should parliament ratify this section Belgium will be without direct control in the finances of her own colony.

Wound Results in Death. Frankfort, Ind., Oct. 8.—Roscoe Douglass, the young man who was shot by City Police Officer Benjamin Martin last Thursday night, died last evening in the Palmer hospital.

Warsaw, Ind., Oct. 8.—Conductor W. F. Kooz of Fort Wayne was killed and four other men injured in a freight wreck on the Pennsylvania road near Bourbon.

Kurtz Denies All Charges. South Bend, Ind., Oct. 8.—The defense in the disbarment proceedings against ex-Prosecuting Attorney G. E. Kurtz put the defendant on the stand to deny all the charges made against him. Kurtz made a strong impression, denying that he had ever tried to induce Attorney J. Fisher to perjure himself on the stand. He also declared that he had never received "hush money" from Wilson Koppenhaver, owner of a gambling house, and that he had not written a false letter in order to bolster up a divorce case.

Confiscation is Alleged. Atlanta, Ga., Oct. 8.—Whether or not reduced passenger fares shall continue in Georgia is the practical issue involved in the suit in equity of the Central of Georgia railroad against the state commission, argument on which has begun in the United States district court before Judge Newman. The Central of Georgia, while at present complying with the commission's order reducing their maximum fare to 2½ cents a mile, allege that the reduction amounts to confiscation of property.

Restrained a "Picket." Springfield, Ill., Oct. 8.—Judge Humphrey in the United States circuit court, on application of the American Steel Foundries of Granite City, issued a temporary injunction restraining John Gill, one of the strikers at the plant, from picketing the plant or in any other manner interfering with its operation. The order is on a line with the restraining order which was issued on Sept. 5 by Judge Frank M. Wright of Urbana, in the absence of Judge Humphrey.

# DAY OF RECKONING

Is In Sight For Bachelors Who Have Been Evading Poll Tax.

## STATE WILL GET BUSY

Thousands of Dollars Due on Such Delinquencies Are to Be Collected Under This Order.

State Tax Board Has Taken a Long Neglected Matter in Hand.

Indianapolis, Oct. 8.—Young men of Indiana who have been wearing fine clothing and burning up the country roads with fast horses and rubber-tired rigs, and incidentally laughing good-naturedly and holding on to their money when the tax-collector called, are facing a day of reckoning.

The state board of tax commissioners will take up the task of looking after the collection of thousands of dollars in taxes. Most of this is delinquent tax owed by unmarried young men who from time to time have owned property, but who have managed to evade the tax collector when he came around. A large proportion of it is poll tax. The state tax board believes that every man, married and unmarried, should pay his taxes.

"It is the duty of the state tax board," said J. W. McCordie of the board, "to see to it that these taxes are collected. Treasurer Ensley of Marion county is the first county treasurer to take up this question in earnest, but within a short time it will be taken up with all of the county treasurers of the state. We are now compiling information which will show the amount of personal property listed in the last assessment, and it will show that millions of dollars held by the citizens of the state has escaped taxation. Our only way to proceed to collect this is to call it to the attention of the county treasurers. The county treasurers will cause suit to be brought and the life of the man who has laughed at the tax commissioner will be one of misery until he pays up."

"After suit has been brought and judgment obtained it will be possible to garnish his wages, and in case his coat is found off his back it can be taken. The judgment will always stand against him, and whenever he comes into possession of any property it will be nabbed up immediately to satisfy his tax account."

## TO HOLD THEIR WHEAT

A Dollar a Bushel is the Point Set by Society of Equity.

Evansville, Ind., Oct. 8.—Delegates from eight counties assembled here for the state meeting of the American Society of Equity. The board of directors resolved on plans for increasing the state membership, and this campaign will be taken up immediately. New organizers and workers will invade the counties in the central and northern parts of the state that are up to this time without local equity societies.

The membership is now 2,700, with Posey county's enrollment of 563 the largest. The membership will be trebled by next year, it is expected, and the state society hopes by then to become a formidable factor with adherents everywhere in the grain-growing sections. The pooling of crops or the advance of cash to farmers in straitened circumstances, who cannot ordinarily hold for the minimum price set by the society, was broached, but the time is too early for uniform state action on this question. Local societies are empowered to establish pools where they think them necessary. All of the delegates are pledged to \$1 wheat, according to the minimum set last year in the national convention, and the price around Evansville now has reached 98 cents.

## Dogs Find the Loot.

Amo, Ind., Oct. 8.—Bloodhounds were brought here to track burglars who had robbed the home of Mrs. Nettie Cummins, after chloroforming the family. Two watches, two necklaces and a handbag were taken. The dogs took up the scent immediately and ran to a lumber yard, where the handbag and the two necklaces were found underneath a pile of boards. The dogs continued the trail to a railroad switch, where two strange men had been seen boarding a freight train.

## Accused of Killing Daughter's Infant.

Huntington, Ind., Oct. 8.—The second trial of D. A. Mosher on the charge of murdering the infant daughter of his daughter, Nora Mosher, was begun in circuit court. The first trial continued a week and a tragedy connected therewith was the suicide of Emory Mosher, a son, who left the courtroom during the trial and shot himself. Mosher and his daughter have been in jail since April, both indicted by the grand jury.

## He Misses That Pass.

Anderson, Ind., Oct. 8.—Because his lifetime pass over the Big Four railroad was cut off on Jan. 1, William Boland of the board of public works has charged the railroad with violation of contract. He demands \$6,000 damages.

## Indiana's Greatest Mare

Our subject? Aileen Wilson, 2:04½ was bred by Clell Maple and O. M. Harton, Rushville, Ind., they owning her dam, her sire Arrowwood, by the Great Nutwood 2:18½, dam Rena Victoria, by George Wilkes, Aileen's dam Ella C, by Redfield, 2:19½; 3d dam by Legal Tender, Jr., 3:40; 3d dam by Blue Bull 75.

When Aileen Wilson was a yearling she was very small, and Mr. Harton insisted that Maple sell him his half of the now famous pacer, which he did; six years ago colts were very cheap, and Mr. Harton purchased the half interest for \$1700, with the understanding that Maple was to train her if he ever had her worked, which contract Mr. Harton complied with to the letter. As a two and three year old, and until the middle of June as a four year old, Maple worked her at the trot, and went a mile as a three year old, 2:32 trotting; then she was put to pacing.

In 1904 in her four year old form, she went four races making a mark of 2:14½, going a trial of 2:13½. In 1905 she went eight races making a mark of 2:17½. At Oakley Park she was only beaten by a nose in 2:08½, and pulled to keep from winning. In 1906 she started at the Indiana State Fair, got second money, time 2:09½, 2:08½, 2:08½, and was not driven to win. At Ft. Wayne the following week got third money; again she was pulled, best time 2:11½. This was a split heat race. At Montpelier, Ind., she got second money over a half-mile track, time 2:14½, 2:12½, 2:13½. At Lima, Ohio, the following week she won in straight heats, time 2:13, (2:09½), but called 2:10½, 2:11½, last quarters in two last heats were 29¾ and 31 seconds respectively. In all three of these heats the little mare was taken back; she could have gone any one of these miles in 2:06, over this half mile track here. She was started with thirteen of the fastest pacers; that ever faced a starter in the 2:16 class over a half mile track; purse \$3000.

It has been said that Aileen Wilson never went a mile in 2:05 until this year. Harry Snyder, the driver of Elm Wood 2:09½, unbeknown to her driver, said he caught Aileen Wilson a mile in a workout at Lexington in 2:04½, and that he considered her the highest class pacer in her class in the country.

When A. H. Merrill was negotiating for the purchase of Aileen Wilson, I told him that she could go three miles in 2:05, and if she had to, could go a mile in 2:03. Neither is she to the limit of her speed; she was a quarter in a race last year in 28¾ seconds, and I told Mr. Harton that barring accidents this year, I could drive her a mile in 2:02 or better.

She has gone more fast miles this year than any horse that was eligible to the 2:07 class at the beginning of the season; she has also taken the record for new 2:10 pacers, and has had a new field of fast pacers to race against every week, and had done her work nobly, and brought credit to Rush county; now it is "Rush county against the world." We have more corn and wheat, hogs and cattle, more money in our banks; our people are better fed, and last but not least, we have more fast horses and pretty women than any county of like population in the State. Come to Rush county and be happy.

# DOCTOR THE ITCH WHERE THE ITCH IS

Don't Dose the Stomach to Cure Eczema and Other Skin Diseases

Those afflicted with Eczema, psoriasis, salt rheum, or other skin diseases of a similar nature, should never dose the stomach to rid themselves of the terrible itch. They should doctor the itch where the itch is—cure the skin through the stomach.

Eczema and other diseases of a kindred kind are skin diseases—not blood diseases. Science has shown that Eczema is caused by germs in the skin and that the disease can be eradicated only by killing the germs.

Dr. Deatur D. Dennis was one of the first physicians to follow out the germ theory in skin diseases. Then he discovered that by mixing oil of wintergreen with other soothing agents he had a liquid prescription which killed the germs and cured the awful itch, leaving the skin white and smooth. Since that time this D. D. D. Preparation has been the standard remedy for skin diseases, just as D. D. D. soap is the standard high grade skin soap.

The first few drops of D. D. D. give instant relief from the terrible itch and from the frightful burning of the diseased skin. So reliable is this D. D. D. remedy that hundreds of physicians prescribe it. It is a wash as thin as water and as mild as soap, which is applied to the diseased portion of the skin.

Mrs. Francis Richmond of Milton, Trimble county, Kentucky, writes: "My little girl's fingers were sore almost to the bone from Eczema. I used part of the sample bottle of D. D. D. Preparation received from you and now they are well. It is a wonderful skin remedy."

We carefully investigated this D. D. D. Prescription before recommending it to our neighbors and patrons, and after a long experience we are more than ever convinced of its wonderful merits. THOMAS W. LYTLE, Rushville, Ind. You needn't decide now, but call at our store anyway and we will show you how this D. D. D. Prescription gives instant relief from itch.

When you have the BACKACHE the liver or kidneys are sure to be out of gear. Try SANOL, it cures backache in 24 hours, and there is nothing better for the liver or kidneys. For sale at the drug store.

Bert Cloud and Enry Lewis took a flying trip to Kentucky, where they procured license and were married. There were some objections to them getting married here on account of the girl's age. Thus they decided to take advantage of the Kentucky laws.

A young hero by the name of Matthews from near Richland on hearing of a pie social at Freemans last Friday evening told some of the boys that he would be there, and he would show them what kind of stuff he was made of. He told them of some of his fighting expeditions and what great strength he attained; that he and another fellow had put a four-horse road grader on a school house one night, and at another time jerked out a thirty-two, and began shooting, and how quick the crowd disappeared. Well, he actually made the boys believe that they were in danger of their lives if he were to take a notion and get on one of his Jesse Coe hilarious stampedes. Sure enough the young Jesse came and he hadn't been there more than twenty minutes until the battle was on. He grabbed a fellow by the name of Anthony by the arm and pulled him out of the door, and struck him under the eye with a billy, cutting a large gash; then he ran, shouting some of his Ose bravery. By this time the crowd had gathered around the one who had been struck and asked him why the fellow had hit him. He replied that he did not know as he said he hadn't said a word to him. This stirred the ambition up in some of the patrons who came there for the purpose of having peace

and order, and they started on the hunt of the young desperado. They soon found him backed up against the school house standing on one foot with his hands in his pockets. He was asked why he had caused the trouble he made apologies saying that Anthony had talked about him to girls and tried to ruin his reputation. He said he was a gentleman and had come there for the purpose of spending money and having a good time. The ring leaders of keeping order told the fellow that if was found guilty of another scrap there he would be arrested and made pay a fine. The young man soon found that he was up against the wrong parties and left. Now we see where we did wrong by not taking the young man before a justice and let him answer to a complaint of assault and battery and to carrying concealed weapons. This is about the third time some one has caused trouble at pie socials at Freemans and it is getting time they were stopped.

## AN OPEN AND SHUT

How the Standard Held the Field In Lubricating Oils.

### SOME FURTHER TESTIMONY

Manager of a Competing Company  
Relates the Difficulties He Had  
In Placing His Products.

Though His Oils Were Satisfactory  
and Sold at Prices Under the  
Standard He Could Not Get In.

New York, Oct. 8.—Testimony that railroads purchased their lubricating oils from the Standard Oil company at prices that were higher than those of its competitors were heard in the federal suit for the dissolution of the so-called oil trust. Philip Harrison, manager of the New York Lubricating Oil company, which was engaged in a long strife with the Standard in the lubricating oil industry, was on the witness stand all day Monday and testified that though the products of his company had proven satisfactory to the railroads and were sold at prices under the Standard's figures, the railroads declined to renew their contracts with the New York Lubricating Oil company.

Mr. Harrison said he was never openly told by the railroad officials why the contracts were not entered into again, but he had a well-defined idea of the cause.

The New York Lubricating Oil company entered into a contract in 1903 to supply the Louisville & Nashville railroad for a period of two years, said Mr. Harrison, and six months before the contract expired President Milton Smith of the railroad informed the oil company that it need not endeavor to obtain a renewal of the contract.

Mr. Harrison testified that he had informed President Smith that if he was permitted to bid for the business he was prepared to reduce the price of engine oil from the current contract price. Notwithstanding the fact that President Smith had praised the quality of the oil and that it was offered at a lower price than that asked by the Standard, Mr. Harrison said the Louisville & Nashville railway entered into a contract with the Galena Signal Oil company, a subsidiary of the oil combine.

Mr. Kellogg, counsel for the government, showed the witness the contract entered into by the Louisville & Nashville and the Galena company after the railroad's contract with the New York Lubricating company had expired, and Mr. Harrison said that the figures showed that the railroad paid \$20,000 a year more for its oil to the Standard than it would have paid under a contract with the New York company.

Mr. Harrison testified that the Central Railway of Georgia had purchased its oil from his company and that it had been satisfactory. The Standard obtained the business, the witness said, notwithstanding the fact that the oil combine charged a higher price than the New York Lubricating company.

**LOSES HIS "MAGNETISM"**

Jail Life Has Taken the Starch Out of 'Gene Schmitz.

San Francisco, Oct. 8.—Patrick Calhoun, Thorneill Mallory, Tiley L. Ford, William M. Abbott, Eugene E. Schmitz and Abe Reuf, all indicted for giving or receiving bribes in connection with the trolley franchise, and Louis Glass, convicted of bribery in connection with the Pacific Telephone company's interests, appeared before Judge Lawler here in the superior court. After hearing the views of the attorneys for the defense, Judge Lawler postponed for a day the decision as to the manner in which the Ford jury shall be drawn. The trial of the next case against Ford was set for Monday, Oct. 14. On that date the cases against the others will come up to be set for trial.

Noticeable was the physical appearance of Schmitz in contrast with that of Glass. The former telephone magnate showed in his face and bearing none of the effects of his confinement in the county jail, but the former mayor looked like a travesty of himself. His face was carved, his hair unkempt, his beard ragged, and small trace remained of the once robust and magnetic personality.

**Caught in Perfect Tune.**

Sydney, N. S., Oct. 8.—While Marconi experts were testing new receiving cones at the top of the towers at the station at Morien, an operator was in communication with the wireless station at Manila. The message received was that the American cruiser Philadelphia had arrived there. The Marconi people account for the occurrence by the theory that the cone at Manila must have been in perfect tune with that at Morien.

**Russia Surrenders Privileges.**

Pekin, Oct. 8.—A new telegraph convention between Russia and China has been signed here. Under it China recovers all her previous telegraph rights in Russian Manchuria and 21,000 miles of lines and connections are formally turned back to her. Russia surrenders the privileges she has exercised since the Boxer outbreak.

**Troops Held in Readiness.**

New Orleans, Oct. 8.—About 200 strike breakers were brought here and put to work by the Illinois Central railroad at the Stuyvesant docks loading cotton. The levee strikers, who now number about 10,000, remained away from the loading districts. Guards, however, were maintained about the big Stuyvesant docks of the Illinois Central and at other points. Governor Blanchard after a day spent in investigating the situation, announced that the troops would be called out if any sign of violence, but that the militia is not

### Local Brevities

Mrs. Isaac Miller, of North Arthur street, continues to improve.

Harrie Jones will start in the races at Lexington, Ky., tomorrow.

Hon. H. E. Griffin who is threatened with typhoid fever, continues quite ill.

Jesse Pugh, of the Rush County National bank, is off duty on a two week's vacation.

The Ladies Aid Society of the Second M. E. church will hold their regular meeting tonight.

Mrs. Robert Hudson, of West Tenth street, who has been seriously ill for several months, is improving.

The official board of the Main Street Christian church will meet tonight at the church parlors at 7:30 o'clock.

Jacob Stewart, who was injured in a fall while employed at Reed's elevator, Saturday afternoon, is getting along nicely.

Olell Maple, local horseman, has an interesting history of Indiana's greatest mare, "Aileen Wilson" on the inside of today's issue of the Daily Republican.

John G. Buell, living on the Willard Amos farm, south of town, presented his wife with an elegant new buggy and harness Sunday, it being her twenty-eighth birthday anniversary.

The Daughter of Rebekah will hold a social at their lodge rooms this evening and arrangements are being made for a good time. All the lady members are requested to bring hats, trimmings, needles and thread.

Charles Meyers, the unfortunate man who was struck by the Connersville Dispatch Saturday afternoon, while driving a loaded log wagon across the I. & C. tracks at Sexton street, is doing nicely and it is thought his injuries will not be permanent.

Donald Norris has accepted the position of ticket agent with the I. & C. traction company in this city to fill the vacancy made by the resignation of Orville Sampson, who has returned to his father's farm near Arlington.

The funeral services of Mrs. Pink VanCamp, formerly of New Salem, and who died at her home in New Castle early Sunday morning, were held at the late residence in that city this morning at 10 o'clock, and the remains were brought to this city at 3:35 this afternoon over the L. E. & W., and taken directly to East Hill cemetery, where interment was made.

Saturday a traveling man stood on the platform at the I. & C. disconsolately surveying the contents of his open suitcase. "What's the matter?" said the agent. "Why I have lost the better part of my luggage," replied the knight of the grip. "What? Stolen, or did you leave it at the hotel?" rejoined the agent. "Worse than either," said the traveler, "the cork came out."

The Rush County Boys' Corn club will meet Saturday week to arrange plans for the coming corn show to be held in this city in December.

The Durco hog sale of Shelton & Lowe of Manilla was held at the Shelby county fair grounds yesterday. The price ranged from \$25 to \$185 for the high bred stock.

Mr. and Mrs. Alva Newhouse and family of North Sexton street, will visit Mrs. Sarah Ann Smith, Mrs. Newhouse's mother, who lives north of this city, tomorrow.

George Hardesty has resigned his position as teacher at school No. 8 in Orange township. Bernie D. Farthing, of near Clarksburg, has been secured to finish the school term.

One of the best and highly interesting moving pictures shown in this city is the automobile racing film at the Vaudeville, which was given last night and continues tonight. The pictures were made at the International race in Germany. Mr. J. Walter Wilson sings an illustrated song with beautiful slides.

R. M. Copeland, aged 84 years, is dead at his home near Dunreith, death having resulted from an illness due to his advanced age, about 1 o'clock Monday morning. He was a native of North Carolina, but had resided in and about Dunreith ever since a boy. He is survived by his wife and five children. He enjoyed the distinction of being one of the oldest men in that community. The funeral arrangements have not been completed, but will probably be held Wednesday.

### Amusements

There will be roller skating at the Kramer rink Friday and Saturday of this week. This will be the last skating until the latter part of November.

The Grand theatre, which is now given over to vaudeville, played to good business at their opening last night. Two crowds greeted the performers and judging from their applause, were pleased with the performances. A juvenile singer, who indulges in a bit of sidewalk conversation with his father—who, being a very commonplace performer, makes a good foil for the lad—was the hit of the bill. The same program will continue tonight and Wednesday night.

### Better Than Medicine.

Breathe Hyomei's Tonic Healing and Be Cured of Catarrh.

Nature has a remedy for catarrh, a treatment that is far better than dosing the stomach with medicine.

It is the healing oils and balsams of Hyomei which medicates the air you breathe, reaching the most remote air cells in the nose, throat and lungs, killing all catarrhal germs, and restoring health to the mucous membrane.

In using Hyomei you are treating your catarrhal troubles with the only natural remedy, for it gives a curative air bath to the air passages that has as powerful healing and antiseptic effect as that found in the mountains where the pine forests give off their fragrant and healing balsams.

Breathe the invigorating and healing Hyomei, and see how quickly you will get relief from your catarrhal troubles. Johnson's Drug Store has seen so many cures, even of the worst cases of catarrh, with offensive breath, rising mucus, frequent sneezing, droppings in the throat and spasmodic coughing, that they feel warranted in selling Hyomei under an absolute guarantee, to refund the money if it does not do all that is claimed for it. They take all the risk.
